

SPEC SHEET

ECR002 - Sontara Blue EC Roll

Section 1. Specifications

- PERFORATED low lint durable wiper manufactured from spunlaced wood-pulp/polyester
- Non-woven with excellent strength and versatility
- Suitable for a wide range of cleaning applications including heavy cleaning, degreasing and spirit wiping
- Excellent absorbency with oils
- Consistent quality and performance with every wiper
- Food grade approved by Intertek

Engineered specifically for wiping, Sontara EC® is a tough, durable material that is abrasion and solvent resistant, contains no binders or glues, is low-linting, and highly absorbent in water, oil and solvents. Sontara EC® wipes are ideal for a wide range of applications including aviation, manufacturing, painting, automotive and machinery repair, printing, graphic arts and much more.

Everything a wipe should be:

Tough and durable for multiple reuses:

- In test after test, proven to be among the strongest – wet or dry
- Can be reused over and over, washes easily yet is inexpensive enough to be treated as a disposable

Absorbent and wipes dry:

- Soaks up to several times its weight in water and also absorbs oil and solvents
- Works fast for excellent wipe-dry

Low-linting:

- Leaves behind virtually none of the lint you get with paper and has no additives to contaminate surfaces
- Plus, it's soft enough for polishing and finishing

Solvent-resistant:

- Stands up to MEK, isopropyl alcohol and other solvents or cleaning agents without falling apart

Saves money:

- Lasts longer which means fewer wipes per task
- Dramatically reduces waste disposal and associated costs compared to other alternatives like cotton rags
- Reduces risk of contamination and contains virtually no contaminants like heavy metals, VOCs or any other chemicals that can be found in alternative products.
